

## **New book published by adesso's senior management will be a guide to the world of software**

, 23. May 2017

**The top executives at adesso Group, one of the largest IT service providers in Germany, have published a book that will be used as a reference guide for software developers.**

The book is titled, *Tamed Agility: Agile Software Projects in Pragmatic Contracting and Collaboration*, and was written by Dr. Volker Gruhn (adesso Group's Co-Founder and Chairman of the Supervisory Board), Ressiger Striemer (Director of International Investments of adesso Group), and Dr. Matthias (Lecturer at the University of Iceland).

The book argues for the necessity of using pragmatic tools and methods in agile projects, not only in software development processes but also in determining the scope of projects and projects that will create value for companies in digital transformation and in the contract management process.

In the first part of the book, which consists of five chapters, the basics of agile software development are discussed. In the second part, the book introduces the "Interaction Room" methodology, in which digitalization and mobilization strategies can be developed.

The book discusses a new contract model called adVANTAGE, which focuses on the commercial aspect of software development.

In the last chapter, the book covers the features that today's software experts should know and understand.

The publication is explicitly useful for CIOs, project managers and software engineers, and is a reference guide for those who wish to successfully complete complex software projects.

### **adesso SE**

adesso is one of the leading IT service providers in the German-speaking area and focuses its consulting and software development activities on the core business processes of companies and public authorities. adesso's strategy is based on three pillars: the deep industry-specific know-how of its staff, the comprehensive expertise in technology and the application of reliable

methods in software implementation projects. Following this approach, adesso develops superior IT solutions, which enhance the competitive position of a company.

adesso was founded in Dortmund in 1997 and employs more than 4,000 members of staff. The share is listed on the regulated market. Some of the most important customers are Allianz, Commerzbank, Münchener Rück, Hannover Rück, Union Investment, Bosch, Westdeutsche Lotterie, Swisslos, Zurich Versicherung, DEVK, DAK, Medizinischer Dienst der Krankenversicherung (MDK-IT), DZR Deutsches Zahnärztliches Rechenzentrum, TÜV Rheinland, Beschaffungsamt des Bundesministeriums des Innern.
